

At **Windermere Stellar**, we believe we can make a greater impact on the community when we join together in our charitable efforts. That's why every Broker **donates a portion of their commission from each transaction** to the Windermere Foundation. Money generated by this standard donation and additional fundraising activities and events benefits local nonprofit organizations that support low-income children and families. In 2015, Windermere Stellar donated **\$350,000 to 46 local agencies** through the Windermere Foundation.

Partnership with Friends of the Children

In 2014, the Windermere Foundation committed to raise \$250,000 over five years for the "Windermere Teaching Kitchen." In January of 2016, that kitchen opened along with the rest of the Friends of the Children facility serving youth in East Multnomah County. Friends of the Children provides professional mentorship to the most at-risk children in our communities.
